OASIS OF PEACE

Uniquely nestled between beautiful Cua Dai Beach and serene De Vong River, Hoi An Beach Resort is 'an Oasis of Peace where the River meets the Ocean', as described by German photographer Han Skemp, a well-known landscape photographer specialising in Asia, during his business trip to the ancient town of Hoi An.

With a total of 121 rooms spread over an area of 3 acres between the beach and river, Hoi An Beach Resort takes its inspiration from the traditional villages of Quang Nam province. Accordingly, the resort entrance is designed like a village gate, while each of the rooms is styled on the traditional architecture of the locals' houses. Every villa has four rooms, two upstairs and two downstairs. Each room is private, cosy and airy, and designed to face either the sea or the river to ensure magnificent views.

The Resort's Cua Dai restaurant is located right beside De Vong River. From the restaurant's balcony diners can enjoy delicious dishes while contemplating the sunset over the river or watching the locals fishing the waters. The restaurant is famous for its seafood and European cuisine, prepared by experienced and skilful chefs. Winter hotpot buffets, cooking classes, traditional music shows and other major events are organised regularly, particularly at weekends.

Furthermore, you can wake up early in the morning to join free Tai Chi training sessions on the resort's own beach, or enjoy sunbathing or a relaxing soak in the Resort's two large swimming pools. In the evening, you can take a comfortable seat and sip a tasty cocktail at the poolside bar or at the beach while listening to the smooth melodies of music or the gentle sound of the sea's waves. Hoi An Beach Resort is often chosen as a honeymoon destination for newly-married couples. Indeed, dining by candlelight on the beach would be one of the most unforgettable memories for any romantic vacation.

Visitors who stay a long time often enjoy the massage services at the Resort's Zen Spa, which offers typical therapies using herbs extracted from local medicinal plants.

Of course, on our

doorstep is Hoi An itself, and you can easily enjoy a stroll in the town's ancient streets by taking one of 12 shuttle trips between 8 am and 10 pm using the Resort's free transportation. The Resort also offers short day tours such as bicycle tours visiting surrounding villages or a trip to the UNESCO World Heritage Sites of My Son Sanctuary or Hue Citadel. 📍
